## PROJECTS

**MIND 2023 Website (HTML, CSS and JavaScript)** [🔗](#)

Designed and built the official website of the 5th International Conference on Machine Learning, Image Processing, Network Security and Data Sciences to be organized by NIT Hamirpur in December, 2023.

**WeatherSnap (Node.js, Express.js, EJS, CSS and REST API)**

A Web application that provides real-time weather information for any location, leveraging Node.js, Express, and EJS. Integrated RESTful APIs to deliver up-to-the-minute weather conditions to users.

**BlogNest (Node.js, Express.js, EJS and CSS)**

A web application developed using Node.js, Express.js, and EJS templates. It provides a platform for bloggers and writers to share their thoughts, stories, and ideas with the world.

**To-Do List (Node.js, Express.js, EJS and CSS)**

Designed and implemented a web application for task management, employing EJS, Node.js, and Express. The application allows users to efficiently create and manage to-do lists, add items to their tasks, and mark completed work, facilitating effective task organization and productivity.
